

### Inclement Weather Plan

It is not uncommon for Nolensville and the surrounding cities to experience adverse weather during the winter months. Below is a plan we will follow should inclement weather arise near one of our service times or events.

- 1.) Website  
The first place to check for any updates on inclement weather will be the website. If there is a change to scheduled services, there will be a message on the homepage.
- 2.) Email  
Should inclement weather affect scheduled activities or services, a mass email will be generated to everyone who has provided an email address to us.
- 3.) Sunday Morning Bible Study classes (SMBS)  
Additionally, SMBS teachers will be contacted by phone. They will in turn contact class care group leaders. Care group leaders will then contact people in their care group.
- 4.) Television  
You can also look for information on WKRN Channel 2 News.
- 5.) Office Phone  
There will be a recorded message at the office number (615)283-8197.
- 6.) Pastor's cell Phones  
You may call us before 10 p.m. or after 6 a.m. for questions about weather. (As always you can call anytime if you have an emergency.)  
Joe 545-1959  
John 974-6501  
Tom 881-0608
- 7.) Wisdom  
Even if services are held, you should assess your drive and be wise.

However, if there is a sudden weather catastrophe or if the electricity is out, some or all of the above options above may not be possible. In that event we will pursue informing everyone with as much due diligence as possible of any changes to scheduled services.
